WHO WE ARE

Katy Youth Hacks is an organization striving to increase student interest and access to **Technology and Computer Science**. Our team is **100% female** and primarily comprises of minority students, thus we feel the importance of encouraging **underrepresented groups** to learn about and pursue a future in STEM.

To fulfill this goal, we focus on hosting STEM outreach events, guest speaker programs, and our flagship event, **the Katy Youth Hacks Hackathon**. KYH will ultimately allow underrepresented groups to **engage in computer science and tech development**.

OUR EVENT

This summer, **Katy Youth Hacks** is celebrating its **5th Annual Hackathon**, bringing together students from around the world to use technology for social good. Through this year's theme, **Tech for Humanity**, participants will create innovative solutions to real-world challenges. Last year, our hackathon welcomed **400+ participants** and raised **over \$70,000** in prizes from corporate sponsors.

This year, we expect **400-600 attendees** at our virtual event hosted on Zoom. Our goal is to raise **\$500** in monetary sponsorships.

Guest Speaker Events

Speakers will give talks to hackathon participants about business pitching, design thinking, and their unique experiences in the tech industry.

Project Creation

Participants will create projects in teams of up to 4 members and pitch them to the judges to compete for prizes!

Why Become a Sponsor?

By sponsoring Katy Youth Hacks, you will be supporting our mission in spreading STEM to underrepresented students. Your support will directly go towards helping us run our programs, as well as promoting and encouraging students to learn about STEM.

How Does Your Contribution Help?

1. Fund our operations such as promotions, advertising, equipment, etc.
2. Offer incentives for students to engage and participate in our Hackathon and programs such as through rewards.
